The Village of Monroeville Shade Tree Commission had a regular meeting on April 1, 2025, at 6 PM.

Present:  Marie Bischoff, Erick Bischoff, Doug Long, Karen Wagner, and Sue Long.

Marie Bischoff was voted as Chairperson and Sue Long as Secretary.

The Arbor Day ceremony was discussed. It was decided that an Oak tree will be planted at Clark Park on April 22, 2025, at 6 PM. The tree will be planted in the green space to the right of the driveway, parallel with the other Oak tree planted last year.

There will be a Red Bud tree planted at 24 Milan Ave on the tree lawn. The members were encouraged to look for more places to plant trees so we can do a Fall planting this year.

The removal and trimming project for this year was given to the members to look over.

The new planters for the uptown area were discussed. There will be only 5 this year to see how they work out and because there will be sidewalk work down uptown this year. Jessica Wasserman has someone who might help with the planting, but Sue will let the others know if we must plant them. The Street Dept will put the soil in the planters for us. The square planters at the library are staying, and they will plant them.

There being no further business, the meeting adjourned at 6:20 PM.
